### **Executive Summary**

#### **Tested URLs:**

- https://www.neu.edu.tr
- https://www.neu.edu.tr/not-found
- https://www.neu.edu.tr/timeout
- https://www.neu.edu.tr/error
- http://invalid.local
- http://timeout.test

Report Generated: 2025-05-26 15:56:38

#### **Test Overview:**

- Total Requests: 506

- Overall Success Rate: 100.0%

- Average Response Time: 7.338 seconds

- 95th Percentile Response Time: 10.003 seconds

- Test Types: Load Test (1 users), Load Test (5 users), Load Test (10 users), Load Test (20 users), Failure Injection,

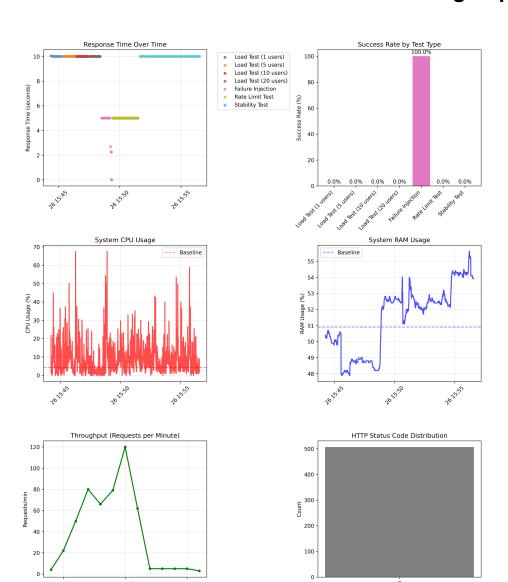

Rate Limit Test, Stability Test

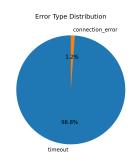

#### System Performance:

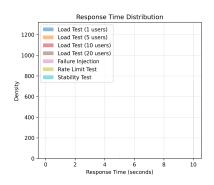

Baseline CPU: 4.2%Baseline RAM: 50.9%

### **Key Insights:**

- Load Test (1 users): Consistent response times (CV=0.00)
- Load Test (1 users): Reliability concerns (0.0%)
- Load Test (5 users): Consistent response times (CV=0.00)
- Load Test (5 users): Reliability concerns (0.0%)
- Load Test (10 users): Consistent response times (CV=0.00)
- Load Test (10 users): Reliability concerns (0.0%)
- Load Test (20 users): Consistent response times (CV=0.00)
- Load Test (20 users): Reliability concerns (0.0%)

Performance Summary

Test Type	Total	Success%	Avg Time	P95 Time
Load Test (1 us	6	0.0%	10.009s	10.032s
Load Test (5 us	30	0.0%	10.001s	10.003s
Load Test (10 u	60	0.0%	10.001s	10.003s
Load Test (20 u	120	0.0%	10.001s	10.004s
Failure Injecti	15	100.0%	3.482s	5.005s
Rate Limit Test	250	0.0%	5.002s	5.004s
Stability Test	25	0.0%	10.002s	10.005s

## **Detailed Test Results**

Test Type	Requests	Success Rate	Avg Time	P95 Time	Throughput
Load Test (1 users)	6	0.0%	10.009	10.032	0.12
Load Test (5 users)	30	0.0%	10.001	10.003	0.59
Load Test (10 users)	60	0.0%	10.001	10.003	1.19
Load Test (20 users)	120	0.0%	10.001	10.004	2.37
Failure Injection	15	nan%	3.482	5.005	0.32
Rate Limit Test	250	0.0%	5.002	5.004	2.08
Stability Test	25	0.0%	10.002	10.005	0.09

### **Analysis and Recommendations**

### Load Test (1 users):

- Consider performance optimization - P95 response time exceeds 2 seconds

### Load Test (5 users):

- Consider performance optimization - P95 response time exceeds 2 seconds

### Load Test (10 users):

- Consider performance optimization - P95 response time exceeds 2 seconds

### Load Test (20 users):

- Consider performance optimization - P95 response time exceeds 2 seconds

### Failure Injection:

- Excellent error handling - 100.0% of failures properly detected

### **Rate Limit Test:**

- No rate limiting detected - consider implementing rate limits for DDoS protection

#### **Stability Test:**

- Stable performance over extended period
